Governance - UCC must increase institutional stability through effective leadership and governance processes.

College Council sought governance feedback through various avenues:

- Governance Survey – an employee focused survey and a student focused survey were distributed accordingly for feedback on the effectiveness of college governance. The survey was completed during the first week of June.
- Governance Councils, including College Council, submitted a year-end survey focused on participation, action items, goals, and collaboration. Suggestions for improvement within their councils were also included.

College Council has one more meeting for the 2019-20 academic year. The time will be used for finalizing reports.
