

**ASUCC Board Report**  
**September 13, 2017**

Our transition to our new offices and student lounge (informally known now as the Student Engagement Center) gives us a refreshing and new excitement for the year ahead. We have been very active and busy preparing for Fall Term. Following is a list of activities:

- In the Month of August, we began and completed 40+ hrs. of leadership training
- As a team we created a Statement of Intent for the 2017-18 ASY
- ASUCC Leadership Team has created and implemented a Code of Ethics
- As a team we have chosen goals and objectives for the year ahead
- As a team we narrowed down a mutual list of values that we will base decisions and activities around for the upcoming year. The core values we have chosen are: Accountability, Adaptability, Integrity, Trust, Dependability and Respect.
- In the month of August we were able to coordinate a chance to introduce part of the team at the TOP Program student orientation. We provided information for volunteer opportunities and services we offer.
- September 5th we planned to go to leadership Conference at Menucha which due to fires conference was cancelled. In November UCC has the honor of hosting a reformatted statewide Leadership Conference. We are excited to learn from our supervisors how to coordinate an event of this scale.

As summer comes to an end, we are learning to work as a team. Embracing our individual roles in leadership as well as the diversity each of us brings to the team.
