

DCFD NO.2 | Treven Anspach Memorial Station

Douglas County Fire District
Umpqua Community College Fire Science

The New Standard for Hands on Training

This partnership between Umpqua Community College and Douglas County Fire District No. 2 will create one of the most unique programs in the state.

Trevon Anspach Memorial Station

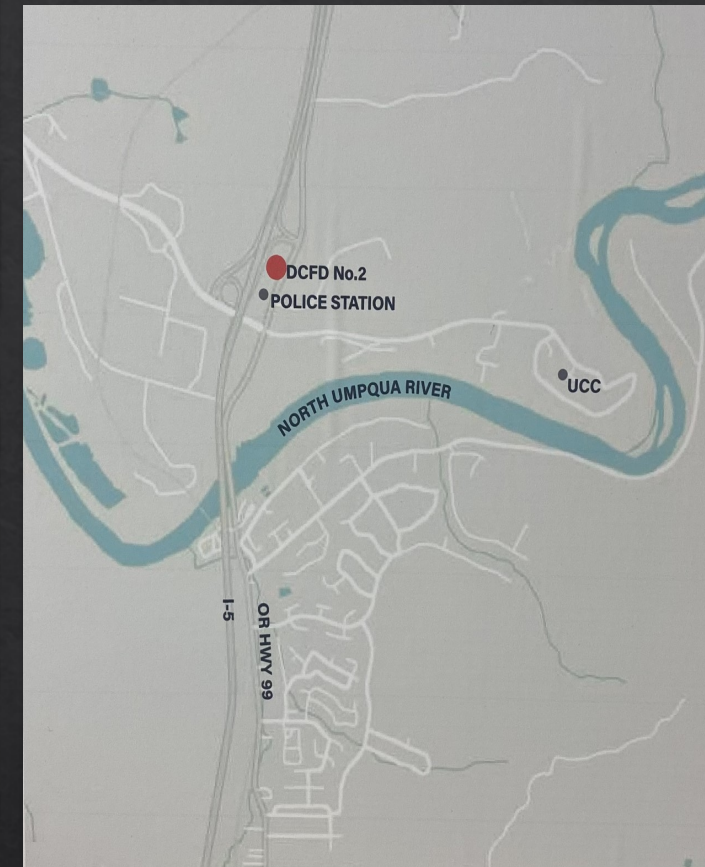

The station will be located just north of the intersection of Hwy 99N and Umpqua College Rd.

The station currently serves UCC and is 1 mile from campus

Oregon State Police office is next door

Location along Interstate 5 will allow for quick response to assist departments around Douglas County

Location on Interstate 5 will allow opportunity for advertisement for the Fire Science & Paramedic programs

Trevon Anspach Memorial Station

- ◆ The 2 bays to the north will be the student station.
- ◆ Introducing a resident program will allow recruitment of students both local and from outside Douglas County
- ◆ It will host our student staffed fire engine
- ◆ It will allow for quick response to learn along side our career staff
- ◆ It will also host a support van
- ◆ The support van could be utilized to assist other departments in Douglas County
- ◆ This side of station will be equipped with dorms and kitchen for the students

Trevon Anspach Memorial Station

- ◇ The middle of the station will hold administration offices for the Fire District
- ◇ It will have a classroom, conference room and workout facility to be shared by career duty crews and students
- ◇ The south 4 bays will be the new home of our Winchester crew.
- ◇ That crew will be working with an ambulance, engine, brush co and possibly water tender

On shift the students are mentored in all aspects of training

They are trained to be able to operate seamlessly
with our duty crews

The students are able to respond to all incidents to utilize their training

Students respond to structure fires, wildland fires, vehicle fires, motor vehicle accidents, and utilize medical skills on a transporting ambulance

Fire Science/Paramedic Program

Students gain valuable experience being
part of a crew on 911 emergencies

Hundreds of hours of training specific to
the job

National Registry Certified as Paramedic

DPSST Certified

Firefighter 1

Driver

Hazmat Awareness

NWCG Wildland Type 2 Firefighter

Our vision

To be competitive in the ever-changing landscape of the emergency services education, Douglas County Fire District No. 2 is offering partnership with Umpqua Community College and local community leaders to break ground on the first ever combined paid and student/volunteer fire station within 1 mile of the college. This station would allow Umpqua Community College to provide a learning experience for students similar to that which makes Chemeketa's Fire Science program one of the best in the state for several decades. This community loses local men and women to competing programs every year to the limitations with the current curriculum and infrastructure. Douglas County Fire District No. 2 would like you and others to invest in our county's future and partner with use to build and educate the next generation of emergency service professionals.
