Graduation Rates 200 Overview

Welcome to the IPEDS Graduation Rates 200 (GR200) survey component. The GR200 component is a further extension of the traditional Graduation Rates (GR) component which carries forward 100% and 150% graduation rates data previously reported in the GR component and requests information on any additional completers and exclusions from the cohort between 151% and 200% of normal time for students to complete all requirements of their program of study. This information is collected to assist institutions with complying with the requirements of the Higher Education Act, as amended.

Data Reporting Reminders

The reporting of data for the 200% completion period is not cumulative. Respondents are ONLY asked to report data for the time period between 151% and 200% of normal time to completion.

 You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website, and should be written to be understood by students and parents.

Students graduate with the equivalent average of 8 terms of attendance regardless of the actual time it takes to complete the degree. The majority of our students attend part time as they have jobs, families, or life circumstances that prevent full time attendance. Consequently average time to graduation is greater than the 3 year federal measure. The average 2 year degree graduation rate hovers around 20%, not including certificates, with an additional 35% to 40% transferring on.
