Data Reporting Reminders

Undergraduate Student Groups

You will be asked to report information for different groups of students.

- **Group 1:** All undergraduate students
- **Group 2:** Of Group 1, full-time, first-time degree/certificate-seeking students (FTFT)
- **Group 3:** Of Group 2, FTFT students who paid the in-state/in-district tuition rate and were awarded any grant/scholarship aid from the federal government, state/local government, or the institution

COA Revisions

Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component.

Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.

College Affordability and Transparency Lists

Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.

Interactive Edits and Error Messages

SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.

Context Boxes

You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the general public.

Section 1: Comparison Chart

Comparison Chart

Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 is correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note: Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

Screen Entry	The number entered is outside the expected range of between 86 and 94 based on data reported by your institution in the prior year Fall Enrollment survey. Please correct your data or explain. (Error #7189)	Explanation	Yes	
Reason:	In 2017, our full-time student enrollment represented a smaller percentage of total enrollment, therefore the number of full-time degree seeking students decreased. The enrollment differed by 1%, and this Error Description specifies a threshold that differs by only 2 from our reported count.

Screen Entry	The number entered is outside the expected range of between 69 and 127 when compared with the prior year value. Please correct your data or explain. (Error #7132)	Explanation	Yes	
Reason:	Oregon's minimum wage increased, and we increased the hourly rate paid to entice students to participate in the Federal Work Study program. These two factors allowed us to offer larger awards but to fewer students.			
Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 2,300 and 3,450 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	During this year, we launched several new sports programs and distributed a similar amount of institutional award dollars over a larger number of students, lowering the average amount awarded per student.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 436 and 652 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	Prior year SEOG funds were awarded over three terms. This year they were awarded over four terms, lowering the average fall term payout.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 2,449 and 3,673 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	The Oregon Promise grant enticed more students from households with lower to no Pell eligibility. These students made up the differential in college costs by borrowing through a combination of Federal Direct Subsidized/Unsubsidized loans, increasing the average amount awarded per student.

Screen Entry	The number entered is outside the expected range of between 39 and 71 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	The Oregon Promise Grant has increased the number of students attending directly from high school. These students tend to live with family - reducing the number not living with family.			
Screen Entry	The number entered is outside the expected range of between 39 and 71 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes

		Explanation	Yes	

Screen Entry	The number entered is outside the expected range of between 19 and 35 when compared with the prior year value. Please correct your data or explain. (Error #7169)			
Reason:	For academic year 2016-17, The State of Oregon provided an "Oregon Promise Grant" to qualified graduating seniors to attend community colleges in Oregon.

Screen: Part E - Enter Information about Group 4				
Screen Entry	The number entered is outside the expected range of between 19 and 35 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	Group 4 contains more non-traditional students, i.e. students who are not entering directly from high school. This group contains fewer people who still live with their parents.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	Students in this income level have lower eligibility for Title IV aid, most of their aid consisted of the Oregon Promise Grant, which, for this income level, is approximately \$3,300.			
Screen Entry	The total number of Group 4 students who were awarded any Title IV aid across all income levels is outside the expected range of between 56 and 92 based on the prior year value. Please correct your data or explain. (Error #7333)	Explanation	Yes	
Reason:	Oregon Promise Grant continues to entice students to enter community college directly from high school, but many of these students come from households earning annual incomes that disqualify them from receiving Title IV aid.			
Screen Entry	The total amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 345,243 and 575,405 based on the prior year value. Please correct your data or explain. (Error #7332)	Explanation	Yes	
Reason:	Oregon Promise Grant continues to entice students to enter community college directly from high school, but many of these students come from households earning annual incomes that disqualify them from receiving Title IV aid. This reduces both the number of students awarded Title IV aid and the total dollar amount of aid awarded.			
Screen Entry	The number entered is outside the expected range of between 30 and 54 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	Oregon Promise Grant enticed more graduating high school students to attend community college, increasing the number of students who also received Title IV student aid.
