

Overview

IPEDS Student Financial Aid Component Overview
Public Academic Reporters

Welcome to the Student Financial Aid (SFA) component. The purpose of the SFA component is to collect information about financial aid provided to various groups of undergraduate students and military/veteran educational benefits for all students at your institution.

Changes to reporting for 2019-20

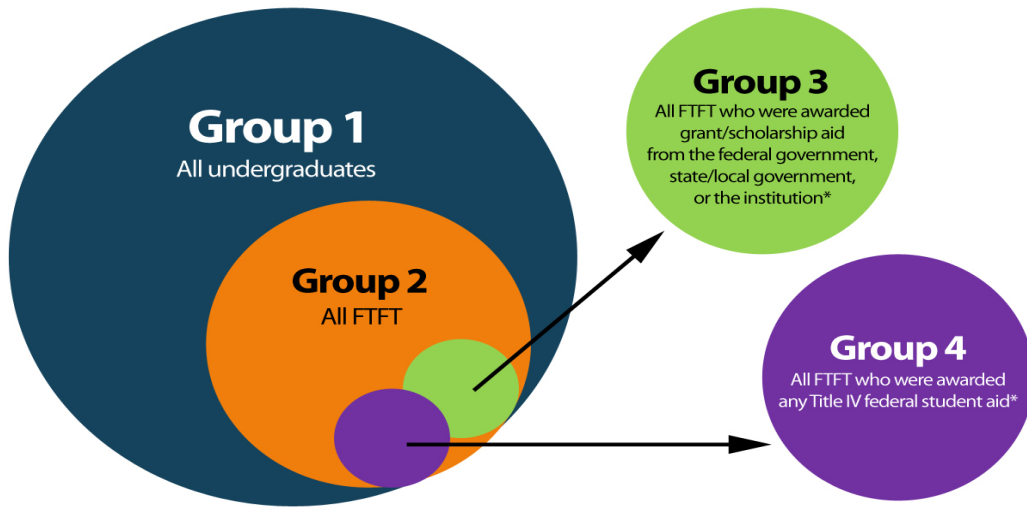

- There is a new instruction to exclude students participating in Experimental Pell (See <https://experimentalsites.ed.gov/exp/approved.html>)

Data Reporting Reminders

Undergraduate Student Groups

You will be asked to report information for different groups of students.

- **Group 1:** All undergraduate students
- **Group 2:** Of Group 1, full-time, first-time degree/certificate-seeking students (FTFT)
- **Group 3:** Of Group 2, FTFT students who paid the in-state/in-district tuition rate and were awarded any grant/scholarship aid from the federal government, state/local government, or the institution
- **Group 4:** Of Group 2, FTFT students who paid the in-state/in-district tuition rate and were awarded any Title IV federal student aid

*For public institutions, include only those students paying the in-state or in-district tuition rate. For program reporters, include only those students enrolled in the institution's largest program.

COA Revisions

Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component.

Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.

College Affordability and Transparency Lists

Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.

Interactive Edits and Error Messages

SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.

Context Boxes

You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the general public.

Section 1: Comparison Chart

Comparison Chart

Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 is correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note: Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

Section 1: Cost of Attendance

Cost of attendance for full-time, first-time undergraduate students:

Please enter the amounts requested below. These data will be made available to the public on College Navigator. If your institution participates in any Title IV programs (Pell, Stafford, etc.), you must complete all information. **Estimates of expenses for books and supplies, room and board, and other expenses are those from the Cost of Attendance report used by the financial aid office in determining financial need. Please talk to your financial aid office to get these numbers to ensure that you are reporting correctly.**

These numbers are carried forward from Institutional Characteristics and should only be changed if an error was made in the reporting.

As required by the *Higher Education Act, as amended (2008)*, these amounts will be posted on the U.S. Department of Education's College Navigator website.

 The notes below provide context for the data you've reported above and may be posted on the College Navigator website. Choose one option that best explains your data or choose "Non-applicable" if you do not wish to provide context notes. If none of the options provided explain your institution's data, then choose "Other" and write your own context notes. Notes should be written to be understood by students and parents. For example, institutions may report here other sources of private aid not included in the categories listed.

IMPORTANT NOTE: Report for **Post-9/11 GI Bill Benefits: July 1, 2018 - June 30, 2019** and Report for **Department of Defense Tuition Assistance Program: October 1, 2018 - September 30, 2019**

- Report the total number of student recipients and the total dollar amounts for each program.
- Student recipients can also include eligible dependents.
- Consult with your campus certifying official, who may not be in the student financial aid office.
- For Post-9/11 GI Bill Benefits, do not include the matching institutional aid provided through the Yellow Ribbon Program if your institution participated.
- Information reported to IPEDS is only what is known to the institution.
- Enter zero (0) if your institution did not have beneficiaries for a program. Please do not leave a cell blank.

Summary**IPEDS Student Financial Aid (SFA) Survey Summary**

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the [Data Center](#) and sent to your institution's CEO in November 2019.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Screen Entry	The number entered is outside the expected range of between 390 and 430 based on data reported by your institution in the prior year Fall Enrollment survey. Please correct your data or explain. (Error #7189)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The number entered is outside the expected range of between 59 and 109 when compared with the prior year value. Please correct your data or explain. (Error #7121)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The number of all undergraduate students reported is outside the expected range of between 1,528 and 2,290 when compared with the prior year value. Please correct your data or explain. (Error #7120)	Explanation	Yes	
Reason:	The prior year value incorrectly excluded dual credit high school students from the count.			
Screen Entry	The number entered is outside the expected range of between 48 and 88 when compared with the prior year value. Please correct your data or explain. (Error #7132)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The number entered is outside the expected range of between 47 and 87 when compared with the prior year value. Please correct your data or explain. (Error #7175)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 1,535 and 2,301 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	UCC added baseball and offered increased tuition waivers to those athletes. In addition, our data collection was improved and is now able to better differentiate between institutional and outside scholarships. Together, these factors increased the value reported for institutional scholarships, thus increasing the average award amount.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 3,458 and 5,186 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	A large proportion of Group 2 students (28%) only attended 1 to 2 terms this academic year, reducing the average award amount received per student.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 3,458 and 5,186 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes

Screen: Part D - Enter Information about Group 3				
Screen Entry	The number entered is outside the expected range of between 22 and 40 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
		Explanation	Yes	

Screen Entry	The number entered is outside the expected range of between 26 and 46 when compared with the prior year value. Please correct your data or explain. (Error #7169)			
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The number entered is outside the expected range of between 39 and 71 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	The Oregon Promise Grant has increased the number of students attending directly from high school. These students tend to live with family - reducing the number not living with family.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The number entered is outside the expected range of between 1 and 33 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The number entered is outside the expected range of between 24 and 42 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The total number of Group 4 students who were awarded any Title IV aid across all income levels is outside the expected range of between 38 and 62 based on the prior year value. Please correct your data or explain. (Error #7333)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The total amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 209,892 and 349,820 based on the prior year value. Please correct your data or explain. (Error #7332)	Explanation	Yes	
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.			
Screen Entry	The number entered is outside the expected range of between 52 and 96 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	The value is low because determining degree/certificate seeking status solely from the student's admissions application is inaccurate. The college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor to identify degree/certificate-seeking students.			
Screen Entry	The number entered is outside the expected range of between 19 and 35 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	Group 4 contains more non-traditional students, i.e. students who are not entering directly from high school. This group contains fewer people who still live with their parents.			
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	Students in this income level have lower eligibility for Title IV aid, most of their aid consisted of the Oregon Promise Grant, which, for this income level, is approximately \$3,300.			
Screen Entry	The total number of Group 4 students who were awarded any Title IV aid across all income levels is outside the expected range of between 56 and 92 based on the prior year value. Please correct your data or explain. (Error #7333)	Explanation	Yes	
Reason:	Oregon Promise Grant continues to entice students to enter community college directly from high school, but many of these students come from households earning annual incomes that disqualify them from receiving Title IV aid.			
Screen Entry	The total amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution across all income levels is outside the expected range of between 345,243 and 575,405 based on the prior year value. Please correct your data or explain. (Error #7332)	Explanation	Yes	
Reason:				

	Oregon Promise Grant continues to entice students to enter community college directly from high school, but many of these students come from households earning annual incomes that disqualify them from receiving Title IV aid. This reduces both the number of students awarded Title IV aid and the total dollar amount of aid awarded.		
Screen Entry	The total number of Group 4 students who were awarded any grant or scholarship aid from the federal government, state/local government, or the institution across all income levels is outside of the expected range of between 25 and 63 based on the prior year value. Please correct your data or explain. (Error #7334)	Explanation	Yes
Reason:	This increase stems from the ongoing audit of our IPEDS data collection code. To improve the accuracy of degree- or certificate-seeking student counts, the college now considers both the student's admission application (as in prior years), and the program of study declared by the student after meeting with an advisor.
