# INSIDE THIS PUBLICATION

## ABOUT COMMUNITY CONNECTIONS

This publication, which was once called the UCC quarterly class schedule, is now called UCC Community Connections.

For the past several years, the college has mailed the class schedule to roughly 50,000 homes in Douglas County as our way of informing the public what we offer. As technology has changed, so has our way of reaching the community. A few years ago we made the printed schedule that you receive in your mailbox available online. The schedule is the second most-read source on the UCC website, so we know how important it is for this information to be accessible and current.

In changing to this new publication, we've moved our college "credit class" schedule completely online. The students in our community will always have access to the most up-to-date credit class schedule additions and changes — something we weren't able to provide when the schedule was in print. The online schedule can be accessed 24/7 at [umpqua.edu/class-schedule](http://umpqua.edu/class-schedule).

So what's here? You'll still find the schedule and information for Community and Workforce Training, Small Business Development Center, and Adult Basic Skills as well as information on Registration and a calendar of UCC's Arts and Athletics events. In addition, we'll share stories about students, outstanding alumni, and community partners who join us in academic excellence.

Check it out. We welcome your feedback.

### UCC's Engineering Program Provides Great Opportunity

Roseburg native Joel LaRaut was raised on his family's century ranch. He attended Hucrest Elementary, JoLane Middle School, and Roseburg High School. Growing up in picturesque Douglas County no doubt fed his love for landscape photography, animals, and outdoor recreation. In addition, he has an interest in sports and travel.

After high school in 2001, LaRaut enrolled at UCC. He explained why he chose UCC, "I wanted to stay in the area and the Engineering program seemed to align with my interests in Drafting. It was reasonably priced compared to other colleges or universities, and I had heard the Engineering program was good."

When he first registered, he wanted to pursue a career in Drafting. He experienced what many have while attending a community college — finding what really sparks your interest.

"I took a course in Hydraulics and on-site systems that gave me exposure to the wastewater industry," he said. "It was there that I first learned about Orenco. I had no idea who they were before those courses."

After graduating, LaRaut landed a job at Orenco Systems in Sutherlin.

"Orenco is a wastewater collection and treatment manufacturer in [Douglas County], and employs hundreds of people," he said. "The company's founders were even professors at UCC years ago. Orenco is a big company with a small shop feel. The owners have an open door policy and everyone is like one big family.

*LaRaut enjoying a trip of exploration and photography in Iceland.*

They have been a great employer as is evidenced by the long tenure of much of the staff. [The company] has checked off all of my boxes."

One of LaRaut's highlights of working for the company was helping out when Paradise, California, was devastated by forest fires in 2018.

The devastation included many septic systems. LaRaut played a role helping to put those systems back online.

"Design review work was fast-tracked through [Orenco] and equipment was prioritized to be manufactured quickly to help the town recover," he said.

"I managed the systems engineering department at the time, and my group ran point in the design review work."

After 18+ years, LaRaut reflected on his experience at UCC and working at Orenco.

"The Engineering program gave me exposure to education that served me well, and it also gave me the opportunity to get a job at Orenco Systems," he said. "I don't feel that I would've found that job without UCC."

## UCC's Investment in New Soccer Program Kicks Off

*Women's soccer will offer athletic and educational opportunities for students.*

The Umpqua Valley has a rich, long soccer history. The Roseburg Soccer Association, which started in 1974, is now known as the Umpqua United Soccer Club. The club serves the Roseburg, Sutherlin, Glide, Winston, and South Umpqua school districts of Douglas County.

UCC is proud to add to this rich soccer history and offer students opportunities through a new Soccer program.

In 2020, UCC's Board of Education voted to invest in the Women's Soccer program. At a time when the College is perceived as only making budgetary cuts, it is also investing in areas where there are opportunities for students and growth.

Starting in Fall 2021, the program will begin with a varsity women's team of 20-30 female athletes.

"We are looking forward to having more female student-athletes on campus, growing our athletic programs, and contributing positively to UCC's culture and community," Whitney Pitalo, UCC's Assistant Director of Athletics, said.

Prior to the COVID-19 pandemic, the UCC Board of Education approved a plan to add soccer as a new sport. College leadership chose to proceed with the plan because additional athletes will increase enrollment. The addition of women's soccer will also bring the College into compliance with Title IX, which requires equal opportunity in intercollegiate athletics.

"We reached out to high schools in the area and all over the West Coast," Pitalo said. "We also had current UCC students reach out. We are developing and working on a place to practice. Right now, we will practice at Fir Grove Park."

Soccer fans, be on the lookout for games starting this fall.

### LEGACY FEE

The fee will be used to fund new construction on campus and deferred maintenance on existing buildings.

### TECHNOLOGY FEE

Provides for the upkeep and renewal of campus technology infrastructure in support of classrooms, computer labs, and campus information systems.
