HOW TO READ THIS

Read the chart down the side to find the first day of the week your class meets. Next find the starting time of your class. Go across the column for the time of day of your final. Read to the top for the day of the week of your final.

EXAM NOTE

Day classes that begin at times other than those listed, or when the first weekly class session is on Wednesday, Thursday or Friday — the instructor will arrange for a final exam time that is open for all of the students in the class. Exams will be held in regular classrooms.

All examinations are to be given as scheduled. Only in emergency situations

will student requests be granted for times other than those listed on this schedule and then only by permission from the Division Director. Night classes which meet only one night per week will have the final on that night.

Saturday classes will have their final exam at the regularly scheduled class time on the last Saturday prior to finals week.

ADULT HIGH SCHOOL DIPLOMA

Students may also earn an Adult High School Diploma through Umpqua Community College. The Woolley Center offers the majority of the high school diploma classes. These classes run four days a week in 5-½ week sessions. In addition to course work, adults may be eligible for high school credit from significant life experiences including work experience, military training, community service and homemaking. Classes are free for students on referral from an area high school, and \$27 per half credit for students paying their own way. For more information on the high school class schedule, please contact the Woolley Center at 541-440-4603.

WOOLLEY CENTER HIGH SCHOOL CREDIT CLASSES

The Woolley Center high school program focuses on college and career preparation. Statistics show that over 80% of jobs earning \$45,000 in Oregon require some post-secondary training: either a college degree or professional/technical certification. Yet many high school students graduate or drop out without a clear idea of what they will or can do next. The program addresses this by familiarizing students with high-growth occupations as well as local training opportunities. The goal is to kindle each student's natural interests and assist them to make plans for the future, whether they include college, vocational training, or something else altogether.

To ensure students learn up-to-date, real world information, they will hear business professionals, have job shadows and field trips, and complete hands-on projects and work samples. These experiences will become part of each student's portfolio, which in turn can be used for college admissions and job interviews. Class sizes are small, with an average of 15 students.
