A MESSAGE FROM DR. DEBRA THATCHER

UCC PRESIDENT

Dear Students,

I have received a warm welcome since joining Umpqua Community College on July 1st, and am so happy to be here. I'm thrilled to be part of a top-notch educational institution that is so focused on helping students achieve their goals.

These are exciting times on campus! We have recently completed construction of the Paul Morgan Observatory, and the final touches on the new Bonnie J. Ford Health, Nursing and Science Center will be complete by mid-August. There will be an opportunity to tour these state-of-the-art buildings prior to the start of Fall Term classes. Please take a moment to visit these wonderful new spaces, as they contribute to the overall excellence of our campus. We have much more to celebrate and many exciting things ahead. I am thrilled to be part of a community invested in student success.

As I join this exceptional team of faculty and staff, I want to remind you that we are all here for you. Remember that we are here to help you meet your educational goals, and are doing everything in our power to provide you with a renewed sense of motivation and personal achievement this term. Please feel free to submit any thoughts and comments to my office anytime at 541-440-4622.

Best,

Dr. Debra Thatcher
President, UCC

SPOTLIGHT ON FORESTRY & NATURAL RESOURCE TRANSFER PROGRAMS

Forest Management

Forest Managers must understand natural resource systems and how to organize the management of forest resources for multiple uses and multiple values. The core curriculum in Forest Management is a broad-based education, including basic courses in mathematics, engineering, statistics, biology and ecology, the physical and social sciences, professional courses in forest biology and ecology and forest management.

The UCC Forest Management program prepares students for transfer to the Forestry bachelor's degree program at Oregon State University (OSU). The curriculum is intended to meet the requirements for the first two years of coursework necessary for application to the professional program in the College of Forestry – Forest Management Option at OSU.

umpqua.edu/forest-management

Forest Engineering

The UCC Forest Engineering program prepares students for transfer to the bachelor's degree at Oregon State University (OSU). The curriculum is intended to meet the requirements for the first two years of course work necessary for application to the Forest Engineering professional program at OSU. Students can also take additional courses at UCC for transfer to the dual Civil and Forest Engineering program at OSU.

UCC's two-year AS degree may also provide a direct career pathway to employment as a Forest Technician or Engineering Technician.

umpqua.edu/forest-engineering

Forest Operations

Forest Operations is designed as a professional forestry degree that blends elements of forest engineering and forest management with business management and entrepreneurship. This unique degree will prepare graduates to support the needs of an evolving forest sector in Oregon and globally. As they gain experience,

graduates will have options to serve as project managers for logging or silvicultural contracting service firms, as consultants, or as company or agency contract administrators that supervise a growing contracting work force.

The UCC Forest Operations program prepares students for transfer to the Forestry bachelor's degree program at Oregon State University (OSU). The curriculum is intended to meet the requirements for the first two years of coursework necessary for application to the professional program in the College of Forestry – Forest Operations Management Option at OSU.

Natural Resources

UCC's Natural Resources - Landscape Monitoring Option program prepares students for a career in conservation science, wildlife biology, fisheries science, botany, forestry, watershed management and other fields related to natural resource science and conservation. The program takes advantage of UCC's well-equipped facilities and the diversity of resources available on its campus and nearby lands to provide a mix of classroom, lab, and field experiences not found at any other institution.

The AS degree in Natural Resources provides a foundation for OSU's Bachelor of Science in Natural Resources. After completing the Natural Resources AS, all of the remaining classes needed to fulfill OSU's Bachelor's degree requirements can be taken at UCC and through OSU's online Ecampus, making it possible to earn a BS in Natural Resources without relocating to Corvallis.
