**CLASS DESCRIPTIONS**

Note: All classes are 30 minutes, except where noted.

**PARENT & CHILD AQUATICS - COMBINED LEVEL 1 & 2**

*(6 months-3 years\*)*

This is a combination of American Red Cross Parent & Child Levels 1 and 2, and introduces parents and children to basic aquatic skills. Parents are taught to safely work with their child in the water, including how to support and hold them and to encourage participation and trying new skills. Children receive a foundation for learning to swim. Parents are actively in the water with the children. \*All children wearing diapers must wear swim diapers.

**PRESCHOOL AQUATICS**

*(ages 4-5)*

New! The American Red Cross new preschool program is for beginning swimmers (ages 4 and 5) with little or no prior swim instruction. The goal is to help children feel comfortable in the water without a parent. Children learn basic aquatic

skills, such as entering and exiting the water, blowing bubbles through their mouth and nose, going underwater, bobbing, gliding, and staying safe. Skills presented in Preschool Levels 1 and 2 are done with instructor assistance, and set the foundation for Level 3 instruction.

**LEARN-TO-SWIM**

*(ages 6 and up)*

**Level 1 - Introduction to Water Skills**

Level 1 is for beginning swimmers who have had very little or no swim instruction. The focus is on developing elementary aquatic skills, positive attitudes, good swimming habits, and safe practices in and around the water. Level 1 skills include: safely entering/exiting the water, blowing bubbles, bobbing, opening eyes underwater to retrieve submerged objects, front and back floating and gliding, alternating arm and leg action, combining stroke movements, and treading water. Most skills are performed with support.

**Level 2 - Fundamental Aquatic Skills**

The goal of Level 2 is to help swimmers gain familiarity with fundamental skills and achieve success without support. Swimmers learn to float and glide on their front and back, develop simultaneous and alternating arm and leg actions, and lay a foundation for future strokes, all without support from the instructor. Students work on floating, gliding, flutter kicking, front and back crawling, turning over from front to back and back to front, retrieving objects, and jumping into water over their head.

**Level 3 - Stroke Development**

Level 3 builds on the skills in Level 2 through additional guided practice. Students should be very comfortable in the water and be able to swim with combined strokes on front and back without assistance. Level 3 focuses on making swimmers comfortable and safe in deep water, teaches front crawl, elementary backstroke, breath control, and submerging, builds on the fundamentals of treading water, introduces scissor and dolphin kicks, and reviews the rules for headfirst entries (seated entry dives).

**Level 4 - Stroke Improvement**

The goal of Level 4 is to develop confidence in the strokes and improve overall aquatic skills. Students improve skills and endurance for freestyle and backstroke, are introduced to breaststroke, sidestroke, and the basics of turns, and continue work on headfirst entries. Students must be comfortable in deep water.

**Level 5 - Stroke Refinement (1 Hour)**

The goal of Level 5 is to coordinate and refine strokes in swimmers who are competent in all strokes and basic diving techniques. Level 5 swimmers focus on refining their techniques, incorporating flip turns, and increasing their swimming distance. Students

should be able to do one length of front and back crawling, know the elementary back, and tread water for one minute.

**Level 6 - Swimming and Skill Proficiency (1 hour)**

The goal of Level 6 is to refine strokes to allow students to swim with more ease, efficiency, power, and smoothness at greater distances and to increase endurance and aquatic fitness. Level 6 has two options - Fitness Swimmer and Fundamentals of Diving.

**PRIVATE SWIMMING LESSONS**

Individual instruction is available at all levels in 30-minute sessions. Private lessons allow swimmers to benefit from a one-on-one environment, work on a specific set of skills, or address special needs or concerns that may limit the swimmer's ability to participate in a group setting. Semi-private lessons are available for up to three children upon request and for a small additional fee.

**WATER SAFETY INSTRUCTOR AIDE (1 HOUR)**

Participants learn how to assist Water Safety Instructors (WSI) in teaching American Red Cross swimming classes. Participants must have the skills or hold a basic-level certificate for Learn-to-Swim Level 4. They must also exhibit a strong sense of maturity and responsibility and be comfortable communicating and working with small children. WSI-Aides must be at least 12 years old. This course is only available in Session 1.

**SNORKELING**

Offered by the Diver's Den, this class is open to anyone 10 years and older. Students become familiar with a mask, snorkel, and fins for exploring the underwater world. This course is only available in Session 4.

**SWIM CLASS INFORMATION AND POLICIES****Session Length and Class Time:**

All swimming sessions are eight days (Monday-Thursday). Level 1-4 classes are 30 minutes. Level 5 and 6 classes are 60 minutes.

**Instructors:**

The majority of UCC instructors are local high school and college students who are American Red Cross certified instructors, have experience teaching swim lessons, or are accomplished swimmers themselves. Instructors follow the American Red Cross Water Safety Instructor guidelines and are certified in First Aid, CPR, and AED.

Every attempt is made to ensure students learn from the same instructor(s) during the course of a swim session. However, when an instructor is ill, it may be necessary to use a substitute.

Concerns regarding pool instruction should be directed to the head lifeguards and/or pool director.

**Attire:**

Swimsuits are required. All students not toilet trained must wear a swim diaper. Students dressed and ready to swim before the designated class time.

**First Class:**

Parents/guardians and students will meet in the pool bleachers for the first five minutes with the instructor(s). Students will be assessed to ensure they are in the appropriate level. If a student's skill level is not appropriate for the level in which he/she is enrolled, the student will be moved appropriately.

**Last Class:**

The last day of class is "graduation," when students receive their certificates and participate in recreational swimming.

**Class Completion & Level Progression:**

Without practice, swimming skills may diminish. If several months have elapsed between swim lessons, it may be necessary to place a student in a class that he/she previously passed due to the skill level at the time of enrollment. Students should be able to perform previous level skills before moving on to the next level.

Completion or participation certificates are handed out the last day of class. In addition, a copy of a blank class progression certificate listing the level skills is available from the pool director. Keep all certificates for an accurate record of student(s) progress.

**Missed Classes:**

A student who misses class(es) will not be able to make it up; this may impede the student's ability to pass the level in which they are enrolled.

If a class is unable to meet in the pool (due to an electrical storm or pool contamination, for example) in-classroom instruction on water safety will be substituted.

**Reminders for Parents/Guardians:**

Parents/guardians are asked to drop off and pick up their student(s) on time.

Parents/guardians are asked to observe classes from the bleachers and to remain off the pool deck. If a parent/guardian creates a distraction to the class, the pool director reserves the right to request that the parent/guardian relocate.

Unless otherwise deemed necessary (see above), parents/guardians are asked to remain in the pool area throughout the entire lesson in case of an emergency (or if the swim student needs to use the restroom during class).

Parents/guardians are asked to have their swim student(s) use the bathroom before each class. If a student needs to use the bathroom while the class is in progress, the instructor will signal the parent/guardian to get the student. Swim instructors cannot leave a class unattended to take students to the bathroom. Students will not be allowed to go into the locker room alone.

Do not leave valuables in unlocked lockers in the locker rooms. The security of items in unsecured lockers cannot be guaranteed.

Students are to read and abide by the contents of the current UCC Catalog, which sets forth the terms and conditions of enrollment and supersedes and replaces any previous Catalog.

Circumstances will undoubtedly require that the policies, procedures, rules, and benefits described in this Catalog change from time to time as the College deems necessary or appropriate, and those changes will be valid when approved by UCC administration and/or voted by the Board of Trustees. Those changes will be posted on the UCC website and when appropriate, will be incorporated in future editions of the UCC Catalog.

A grievance procedure and binding arbitration is provided for any dispute or claim (including those based upon a statute, tort, or public policy) that a student has with the College regarding the terms and conditions of enrollment by the College.

## How to get to UCC

Easy I-5 access. Take exit 129. If coming from the south, turn right at the stop, and left onto Umpqua College Road. If coming from the north, turn left at the stop sign. Continue traveling east on Umpqua College Road. Umpqua Community College is about one mile.

## Parking

Umpqua Community College provides more than 450 parking spaces conveniently located near all campus buildings. Of these, about 171 are assigned to college faculty and staff.

All employees are given a yearly parking permit. Designated parking spots for employees are marked by green lines, curbs and signs. All part-time and full-time students also receive a yearly parking permit. Designated parking spots for students are marked by yellow lines, curbs and signs. All white marked lines and curbs are regarded as open parking. These spots are available to everyone. There are 14 parking spots clearly designated for the college Motor Pool and are off limits to general parking. Red zones are usually fire related areas and are considered restricted lanes; no parking is allowed at any time.

**Visitor Parking —**  
Visitor parking is clearly divided into two separate areas. One area is 30-minute visitor only and the other is Visitor Day parking only. All areas are designated by purple curbs, lines, and signs. The 30-minute only is for non-student activities and is strictly enforced. The Visitor Day parking is for specific day use only. Permits are available at the front desk of the Administrative Building or in advance through the UCC Security Department.

**Disabled Person Parking —**  
Special stickers are required for parking in clearly marked Disabled Parking spaces. These stickers are issued at the Oregon Division of Motor Vehicles.
