SWIM CLASS DESCRIPTIONS

Note: All classes are 30 minutes, except where noted.

PARENT & CHILD AQUATICS - COMBINED LEVEL 1 & 2

(6 months-3 years*)

This is a combination of American Red Cross Parent & Child Levels 1 and 2, and introduces parents and children to basic aquatic skills. Parents are taught to safely work with their child in the water, including how to support and hold them and to encourage participation and trying new skills. Children receive a foundation for learning to swim.

Parents are actively in the water with the children. *All children wearing diapers must wear swim diapers.

PRESCHOOL AQUATICS

(ages 4-5)

The American Red Cross preschool program is for beginning swimmers (ages 4 and 5) with little or no prior swim instruction. The

goal is to help children feel comfortable in the water without a parent. Children learn basic aquatic skills, such as entering and exiting the water, blowing bubbles through their mouth and nose, going underwater, bobbing, gliding, and staying safe. Skills presented in Preschool Levels 1 and 2 are done with instructor assistance, and set the foundation for Level 3 instruction.

LEARN-TO-SWIM

(ages 6 and up)

Level 1 - Introduction to Water Skills

Level 1 is for beginning swimmers who have had very little or no swim instruction. The focus is on developing elementary aquatic skills, positive attitudes, good swimming habits, and safe practices in and around the water. Level 1 skills include: safely entering/exiting the water, blowing bubbles, bobbing, opening eyes underwater to retrieve submerged objects, front and back floating and gliding, alternating arm and leg action, combining stroke movements, and treading water. Most skills are performed with support.

Level 2 - Fundamental Aquatic Skills

The goal of Level 2 is to help swimmers gain familiarity with fundamental skills and achieve success without support. Swimmers learn to float and glide on their front and back, develop simultaneous and alternating arm and leg actions, and lay a foundation for future strokes, all without support from the instructor. Students work on floating, gliding, flutter kicking, front and back crawling, turning over from front to back and back to front, retrieving objects, and jumping into water over their head.

Level 3 - Stroke Development

Level 3 builds on the skills in Level 2 through additional guided practice. Students should be very comfortable in the water and be able to swim with combined strokes on front and back without assistance. Level 3 focuses on making swimmers comfortable and safe in deep water, teaches front crawl, elementary backstroke, breath control, and submerging, builds on the fundamentals of treading water, introduces scissor and dolphin kicks, and reviews the rules for headfirst entries (seated entry dives).

Level 4 - Stroke Improvement

The goal of Level 4 is to develop confidence in the strokes and improve overall aquatic skills. Students improve overall and endurance for freestyle and backstroke, are introduced to breaststroke, sidestroke, and the basics of turns, and continue work on headfirst entries. Students must be comfortable in deep water.

Level 5 – Stroke Refinement (1 Hour)

The goal of Level 5 is to coordinate and refine strokes in swimmers who are competent in all strokes and basic diving techniques. Level 5 swimmers focus on refining their techniques, incorporating flip turns, and increasing their swimming distance. Students should be able to do one length of front and back crawling, know the elementary back, and tread water for one minute.

Level 6 – Swimming and Skill Proficiency (1 hour)

The goal of Level 6 is to refine strokes to allow students to swim with more ease, efficiency, power, and smoothness at greater distances and to increase endurance and aquatic fitness. Level 6 has three options – Fitness Swimmer, Fundamentals of Diving, and Personal Water Safety.

PRIVATE SWIMMING LESSONS

Individual instruction is available at all levels in 30-minute sessions. Private lessons allow swimmers to benefit from a one-on-one environment, work on a specific set of skills, or address special needs or concerns that may limit the swimmer's ability to participate in a group setting. Semi-private lessons are available for up to three children, upon request and for a small additional fee.

WATER SAFETY INSTRUCTOR AIDE (1 HOUR)

Participants learn how to assist Water Safety Instructors (WSI) in teaching American Red Cross swimming classes. Participants must have the skills or hold a basic-level certificate for Learn-to-Swim Level 4. They must also exhibit a strong sense of maturity and responsibility and be comfortable communicating and working with small children. WSI-Aides must be at least 12 years old. This course is only available in Session 1.

SNORKELING

This class is open to anyone 10 years and older. Students become familiar with a mask, snorkel, and fins for exploring the underwater world. This course is only available in Session 4.

SWIM CLASS INFORMATION AND POLICIES**Session Length and Class Time:**

All swimming sessions are eight days (Monday-Thursday). Level 1-4 classes are 30 minutes. Level 5 and 6 classes are 60 minutes.

Instructors:

The majority of UCC instructors are local high school and college students who are American Red Cross certified instructors, have experience teaching swim lessons, or are accomplished swimmers themselves. Instructors follow the American Red Cross Water Safety Instructor guidelines and are certified in First Aid, CPR and AED.

Every attempt is made to ensure students learn from the same instructor(s) during the course of a swim session. However, when an instructor is ill, it may be necessary to use a substitute.

Concerns regarding pool instruction should be directed to the head lifeguards and/or pool director.

Attire:

Swimsuits are required. All students not toilet trained must wear a swim diaper. Students dressed and ready to swim before the designated class time.

First Class:

Parents/guardians and students will meet in the pool bleachers for the first five minutes with the instructor(s). Students will be assessed to ensure they are in the appropriate level. If a student's skill level is not appropriate for the level in which he/she is enrolled, the student will be moved appropriately.

Last Class:

The last day of class is "graduation", when students will receive their certificates and participate in recreational swimming.

Class Completion & Level Progression:

Without practice, swimming skills may diminish. If several months have elapsed between swim lessons, it may be necessary to place a student in a class that he/she previously passed due to the skill level at the time of enrollment. Students should be able to perform previous level skills before moving on to the next level.

Completion or participation certificates are handed out the last day of class. In addition, a copy of a blank class progression certificate listing the level skills is available from the pool director. Keep all certificates for an accurate record of student(s) progress.

Missed Classes:

A student who misses class(es) will not be able to make it up; this may impede the student's ability to pass the level in which they are enrolled.

If a class is unable to meet in the pool (due to an electrical storm or a pool contamination, for example) in-classroom instruction on water safety will be substituted.

Reminders for Parents/Guardians:

Parents/guardians are asked to drop off and pick up their student(s) on time.

Parents/guardians are asked to observe classes from the bleachers and to remain off the pool deck. If a parent/guardian creates a distraction to the class, the pool director reserves the right to request that the parent/guardian relocate.

Unless otherwise deemed necessary (see above), parents/guardians are asked to remain in the pool area throughout the entire lesson in case of an emergency (or if the swim class student needs to use the restroom during class).

Parents/guardians are asked to have their swim class student(s) use the bathroom before each class. If a student needs to use the bathroom while the class is in progress, the instructor will signal the parent/guardian to get the student. Swim instructors cannot leave a class unattended to take students to the bathroom. Students will not be allowed to go into the locker room alone.

Do not leave valuables in unlocked lockers in the locker rooms. The security of items in unsecured lockers cannot be guaranteed.

SPOTLIGHT ON CYBERSECURITY

CREATING A PATH TO VIRTUAL JOB SECURITY

This fall, Umpqua Community College is opening the cyber flood gates. The College has created a path for those interested in actual and virtual job security. UCC recently joined forces with Mt. Hood Community College to take on hackers—state and nationwide—by offering a two-year degree in Cybersecurity.

“UCC is on the verge of graduating students who will be ready to fill thousands of jobs nationwide,” John Blackwood, UCC’s Computer Science instructor, said. “Oregon alone has over 1,000 cybersecurity positions waiting for trained people to fill them.”

Cybersecurity is a hands-on, highly-interactive program. It took Blackwood two years to create it after researching hundreds of schools across the country. He says jobs in the field can grow into \$175,000 a year careers.

Here is how the program is designed to work: UCC will train batches of geniuses—also known as white hat hackers (the good guys)—who defend against gray and black hat hackers (bad guys) who try and worm their way into your everyday life. Each year, black hat hackers cost consumers and companies between \$375 and \$575 billion. This number is expected to grow as online information stealing expands with increased internet use.

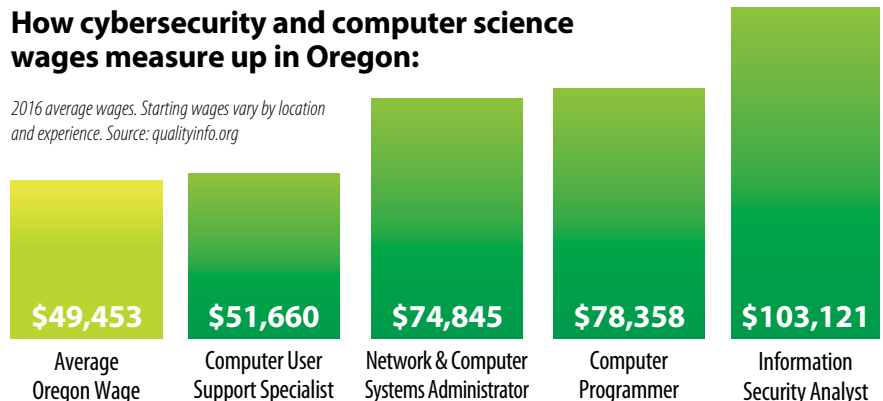

“Cybersecurity graduates have two main jobs; preventing a hack and responding and repelling a hacker once they get into a network,” Blackwood said. “Along with learning how to ethically hack into computers and networks, students will also learn theory. This program is filled with a lot of real-life scenarios and hands-on training.”

UCC’s newest program is on the cutting edge of technology. There are only four community colleges in the country that offer two-year degrees in cybersecurity. Job experts say employment in this area is expected to grow nearly 20 percent over the next few years. To get started or learn more information, check out www.umpqua.edu/cybersecurity.

The Library and the Success Center, both located in the Sue Schaeffer Learning Commons, collaborate to provide a welcoming environment where students can access academic resources, work with a tutor, study on their own, or work with their classmates. Peer tutoring, provided by successful UCC students, is available for most subjects, Monday through Friday. Students can also access online tutoring, available 24/7 through SmarThinking, a resource that allows students to connect with experts in their fields for help in their courses. There are several convenient study spaces, including study rooms for group projects that feature large touch screen monitors, individual study kiosks, couches, a large open study area, and ADA accessible tables. A computer lab with printing services and dedicated Lab Aides to help troubleshoot technology queries are also available. Research librarians can assist students in their research, and help guide them through the large online collection of academic journals, films, books, and other resources. Additionally, students can reserve textbooks and laptops for in-library use. Please visit www.ucclibrary.com for more information, including hours of operation. Check the Success Center's tutoring schedule at: www.umpqua.edu/tutoring-schedule.

| *Individual lessons are variable credits—specify 1 or 2 credits when you register. Any student registering for an Individual Music Lesson MUST contact the Fine and Performing Arts Program Assistant (541-440-4691) in order to get contact information for the instructor. It is the STUDENT'S responsibility to establish contact with the instructor during or before the FIRST WEEK OF CLASSES. Failure to do so will result in the student being dropped from roster, and possible forfeiture of tuition and fees. | | | | | | | | | | | | |
