### PARENT & CHILD AQUATICS - COMBINED LEVEL 1 & 2

(6 months-3 years\*)

This is a combination of American Red Cross Parent & Child Levels 1 and 2, and introduces parents and children to basic aquatic skills. Parents are taught to safely work with their child in the water, including how to support and hold them and to encourage participation and trying new skills. Children receive a foundation for learning to swim.

### Sports Camps

**Basketball**

**541-440-7717**

**Volleyball**

**541-440-7728**

**Swim Classes & Activities 541-440-7845**

**Parents are actively in the water with the children.** \*All children wearing diapers must wear swim diapers.

### PRESCHOOL AQUATICS

(ages 4-6)

The American Red Cross preschool program is for beginning swimmers (ages 4 and 5) with little or no prior swim instruction. The goal is to help children feel comfortable in the water without a parent. Children learn basic aquatic skills, such as entering and exiting the water, blowing bubbles through their mouth and nose, going underwater, bobbing, gliding, and staying safe. Skills presented in Preschool Levels 1 and 2 are done with instructor assistance, and set the foundation for Level 3 instruction.

### LEARN-TO-SWIM

(ages 6 and up)

#### Level 1 - Introduction to Water Skills

Level 1 is for beginning swimmers who have had very little or no swim instruction. The focus is on developing elementary aquatic skills, positive attitudes, good swimming habits, and safe practices in and around the water. Level 1 skills include: safely entering/exiting the water, blowing bubbles, bobbing, opening eyes underwater to retrieve submerged objects, front and back floating and gliding, alternating arm and leg action, combining stroke movements, and treading water. Most skills are performed with support.

#### Level 2 - Fundamental Aquatic Skills

The goal of Level 2 is to help swimmers gain familiarity with fundamental skills and achieve success without support. Swimmers learn to float and glide on their front and back, develop simultaneous and alternating arm and leg actions, and lay a foundation for future strokes, all without support from the instructor. Students work on floating, gliding, flutter kicking, front and back crawling, turning over from front to back and back to front, retrieving objects, and jumping into water over their head.

Go to **RoseburgSummerFun.com** for information and to register online.

Call 541-440-4668 or visit our office in the Community & Workforce Training (CWT) Building on the UCC Campus.

### Level 3 - Stroke Development

Level 3 builds on the skills in Level 2 through additional guided practice. Students should be very comfortable in the water and be able to swim with combined strokes on front and back without assistance. Level 3 focuses on making swimmers comfortable and safe in deep water, teaches front crawl, elementary backstroke, breath control, and submerging, builds on the fundamentals of treading water, introduces scissor and dolphin kicks, and reviews the rules for headfirst entries (seated entry dives).

### Level 4 - Stroke Improvement

The goal of Level 4 is to develop confidence in the strokes and improve overall aquatic skills. Students improve skills and endurance for freestyle and backstroke, are introduced to breaststroke, sidestroke, and the basics of turns, and continue work on headfirst entries. Students must be comfortable in deep water.

### Level 5 – Stroke Refinement (1 Hour)

The goal of Level 5 is to coordinate and refine strokes in swimmers who are competent in all strokes and basic diving techniques. Level 5 swimmers focus on refining their techniques, incorporating flip turns, and increasing their swimming distance. Students should be able to do one length of front and back crawling, know the elementary back, and tread water for one minute.

### Level 6 – Swimming and Skill Proficiency (1 hour)

The goal of Level 6 is to refine strokes to allow students to swim with more ease, efficiency, power, and smoothness at greater distances and to increase endurance and aquatic fitness. Level 6 has three options – Fitness Swimmer, Fundamentals of Diving, and Personal Water Safety.

### PRIVATE SWIMMING LESSONS

Individual instruction is available at all levels in 30-minute sessions. Private lessons allow swimmers to benefit from a one-on-one environment, work on a specific set of skills, or address special needs or concerns that may limit the swimmer's ability to participate in a group setting. Semi-private lessons are available for up to three children, upon request and for a small additional fee.

### DIVING

There is no age restriction but student should be a level 4 swimmer before taking this class. This diving class involves both an introduction and competitive diving safety and techniques. Teaching includes: Head first entry from side of pool and diving board. Proper arm, hand, and leg movements for entry. This class will also involve swimming. This course is only available in Session 4 and Session 5. Register online at [www.umpqua.edu/cwt](http://www.umpqua.edu/cwt) or in person at Community & Workforce Training Office, Science Bldg. For more information call 541-440-4668 or Daniel at 541-440-7717.

### SWIM CLASS INFORMATION AND POLICIES

#### Session Length and Class Time:

All swimming sessions are eight days (Monday-Thursday). Level 1-4 classes are 30 minutes. Level 5 and 6 classes are 60 minutes.

#### Instructors:

The majority of UCC instructors are local high school and college students who are American Red Cross certified instructors, have experience teaching swim lessons, or are accomplished swimmers themselves. Instructors follow the American Red Cross guidelines and are certified in First Aid, CPR and AED.

Every attempt is made to ensure students learn from the same instructor(s) during the course of a swim session. However, when an instructor is ill, it may be necessary to use a substitute.

Concerns regarding pool instruction should be directed to the head lifeguards and/or pool director.

#### Attire:

Swimsuits are required. All students not toilet trained must wear a swim diaper. Students dressed and ready to swim before the designated class time.

#### First Class:

Parents/guardians and students will meet in the pool bleachers for the first five minutes with the instructor(s). Students will be assessed to ensure they are in the appropriate level. If a student's skill level is not appropriate for the level in which he/she is enrolled, the student will be moved appropriately.

### Last Class:

The last day of class is "graduation", when students will receive their certificates and participate in recreational swimming.

### Class Completion & Level Progression:

Without practice, swimming skills may diminish. If several months have elapsed between swim lessons, it may be necessary to place a student in a class that he/she previously passed due to the skill level at the time of enrollment. Students should be able to perform previous level skills before moving on to the next level.

Completion or participation certificates are handed out the last day of class. In addition, a copy of a blank class progression certificate listing the level skills is available from the pool director. Keep all certificates for an accurate record of student(s) progress.

### Missed Classes:

A student who misses class(es) will not be able to make it up; this may impede the student's ability to pass the level in which they are enrolled.

If a class is unable to meet in the pool (due to an electrical storm or a pool contamination, for example) in-classroom instruction on water safety will be substituted.

### Reminders for Parents/Guardians:

Parents/guardians are asked to drop off and pick up their student(s) on time.

Parents/guardians are asked to observe classes from the bleachers and to remain off the pool deck. If a parent/guardian creates a distraction to the class, the pool director reserves the right to request that the parent/guardian relocate.

Unless otherwise deemed necessary (see above), parents/guardians are asked to remain in the pool area throughout the entire lesson in case of an emergency (or if the swim class student needs to use the restroom during class).

Parents/guardians are asked to have their swim class student(s) use the bathroom before each class. If a student needs to use the bathroom while the class is in progress, the instructor will signal the parent/guardian to get the student. Swim instructors cannot leave a class unattended to take students to the bathroom. Students will not be allowed to go into the locker room alone.

Do not leave valuables in unlocked lockers in the locker rooms. The security of items in unsecured lockers cannot be guaranteed.

# SPOTLIGHT ON STUDENT SUCCESS

## CREATING COMMERCIAL-FREE SUCCESS FROM SCRATCH

***"I explored a lot of things in five years ... I use everything I learned."***

— Patrick Schneider, UCC alumnus

When Patrick Schneider started his studies at Umpqua Community College in 2012, the idea of creating a new radio station in Roseburg was hardly a blip on the radar. Today, the UCC alum is steadily working to build a low-power FM station located in the heart of downtown, and he is doing it using everything he learned through his studies at UCC.

Known by many as Trick, Schneider was no stranger to the world of broadcasting when he arrived at UCC. With a 15-year background in radio, Trick worked in the industry in Southern California from the late 90s to 2010. He studied radio in college and was interested in recording music. After signing up for an internship, he dropped out of school.

"I ended up working in radio for more than a decade, but there's no money in it," he said. "Being from Southern Oregon, I decided to move home. When I got back here, my family talked me into going back to school."

After deciding to pursue business marketing, Trick certainly took his time in earning a degree. He spent a

lot of time in UCC's communication studies area. He was also very active with The Mainstream, UCC's student media publication. Five years later, he graduated with an associate degree ... and seven additional certifications.

"I explored a lot of things in five years and I learned a lot," he said. "I'm a man of all trades now — marketing, fundraising, station development, social media, public relations, media relations. I use everything I learned."

Trick's education and his numerous skills appealed to Kasey Hovik. As the executive director of the Umpqua Watersheds, Hovik's organization wanted to create a radio station to help support their mission of educating, training, and advocating for ecologically sound stewardship. As a result, KQUA 99.7 — a commercial-free, nonprofit radio station — was created as a community service.

"We went through the FCC (Federal Communications Commission) four years ago asking for a frequency," Hovik said. "As the deadline approached for us to receive the

designation, we got serious about it and made a \$5,000 investment in equipment. We were so fortunate to find Patrick."

As the program director for KQUA, Trick is a volunteer. Broadcasting from a building donated to Umpqua Watersheds, Trick produces four hosted shows a week on the alternative music format station. With a laptop computer and portable microphones, he can travel anywhere to gather the interviews he uses on-air.

"Trick certainly puts a lot of love and care into it," Hovik said. "This [station] wouldn't have happened without him."

KQUA 99.7 has evolved since hitting the airwaves in 2017. Trick's goal locally is to partner with a variety of organizations in the community to help raise awareness and share information with the public. Right now, the station can be heard within a 10-mile radius of Downtown Roseburg. By this summer's end, the station's website should be finished. Once that happens, KQUA's content will be available worldwide. Along with achieving global reach, Hovik has one more milestone to achieve.

"The goal is to get Patrick paid," Hovik said. "We're working on a number of things to make that happen — writing grants, working on sponsorships, things like that."

Until that happens, Trick says he is a dedicated volunteer. Umpqua Watersheds hosts fundraising events throughout the year. A number of these events raise money that specifically go toward improving the radio station. Learn more here:
