These classes run four days a week in 5 ½ week sessions. In addition to course work, adults may be eligible for high school credit from significant life experiences including work experience, military training, community service and homemaking. Classes are free for students on referral from an area high school, and \$27 per half credit for students paying their own way. For more information on the high school class schedule, please contact the Woolley Center at 541-440-4603.

WOOLLEY CENTER HIGH SCHOOL CREDIT CLASSES

The Woolley Center high school program focuses on college and career preparation. Statistics show that over 80% of jobs earning \$45,000 in Oregon require some post-secondary training: either a college degree or professional/technical certification. Yet many high school students graduate or drop out without a clear idea of what they will or can do next. The program addresses this by familiarizing students with high-growth occupations as well as local training opportunities. The goal is to kindle each student's natural interests and assist them to make plans for the future, whether they include college, vocational training, or something else altogether.

To ensure students learn up-to-date, real world information, they will hear business professionals, have job shadows and field trips, and complete hands-on projects and work samples. These experiences will become part of each student's portfolio, which in turn can be used for college admissions and job interviews. Students choose either a GED or Adult High School Diploma path. Class sizes are small, with an average of 15 students..

DUAL CREDIT OPTION (ON CAMPUS)

Students may also choose the dual credit option-attending college classes on campus to earn both high school credit and college credit. Students interested in this option must meet with the campus high school diploma advisor at 541-440-7767.

Online high school classes are offered year-round and can be accessed anytime, anywhere that has a computer and internet access. Students can work at home, from the library or at school whenever it fits into their schedule. And, it's never too late to complete your education and boost your career potential. Parking

Umpqua Community College provides more than 450 parking spaces conveniently located near all the campus buildings. Of these, about 171 are assigned to college faculty and staff.

All employees are given a yearly parking permit. Designated parking spots for employees are marked by green lines, curbs and employee only signage. All part-time and full-time students also receive a yearly parking permit. Designated parking spots for students are marked by yellow lines, curbs and student only signage. All white marked lines and curbs are regarded as open parking. These spots are available to everyone. There are 14 parking spots clearly designated for the college Motor Pool and off limits to general parking.

Red zones are usually fire related areas and are considered restricted lanes and zones with no parking allowed at any time.

Visitor Parking — Visitor parking is clearly divided into 2 separate areas. One area is 30 minute visitor only and the other is Visitor Day parking only. All areas are designated by purple curbs, lines, and signage. The 30 minute only is for non-student activities and strictly enforced. The Visitor Day parking is for specific day use only with one day permits available at the front desk of the Administrative Building or in advance through the UCC Security Department.

Disabled Person Parking — Special stickers are required for parking in clearly marked Disabled Parking spaces. These stickers are issued at the Oregon Division of Motor Vehicles.

WHY THIS SCHEDULE LOOKS DIFFERENT:

We're Saving Money!

AS A COMMUNITY COLLEGE COMMITTED to fiscal responsibility, we are always looking for ways to better manage expenses. The document you are holding is evidence of our ongoing efforts in this area.

Over the years, this schedule has proved to be our most efficient and cost-effective means of sharing information about our upcoming classes. By sending this to Douglas County residences, we ensure all those interested in furthering their education have easy access to our many offerings.

We have researched other ways to disseminate this information, including distributing schedules to retail outlets throughout the county, then mailing notices to Douglas County homes to let students/prospective students know where to pick one up.

These alternatives simply do not save enough to warrant the potential hardships they might cause which could result in far fewer people having access to our classes.

There is still no better way to get information in your hands than mailing you this schedule. That said, we have made a concerted effort to reduce the expenses associated with this piece. We have reduced the number of pages in the schedule, printed them on newsprint and eliminated any use of color. In fact we were able to add back information on the credit-bearing classes you told us you missed in the last edition.

THESE CHANGES HAVE RESULTED IN SIGNIFICANT COST SAVINGS.

While our new schedule may not be as eye-catching as it has been in the past, we are confident you will be happy with the tradeoff in cost savings, knowing your community college is committed to using tax dollars wisely.
